SUMMARY

IT graduate and Python Developer with hands-on experience in Python, Odoo, SQL, PostgreSQL, backend development, ERP customization, workflow automation, and business applications. Experienced in developing and customizing Odoo modules across HR, Payroll, Attendance, Asset Management, Maintenance, and Real Estate domains. Strong understanding of Python-based business logic, ORM, database operations, validations, scheduled automation, and application troubleshooting, with additional exposure to data analysis and business insights.

TECHNICAL SKILLS

Programming — Python, SQL

Backend & ERP — Odoo, Odoo ORM, Backend Development, Business Logic, ERP Customization

Database — PostgreSQL, SQL, Database Operations

Web Technologies — HTML, CSS, JavaScript, XML

Development — API Integration, Workflow Automation, Cron Jobs, Data Validation, Debugging, Performance Optimization

Data & Analytics — Power BI, Excel, Data Analysis

Tools — VS Code, Canva

Languages — English, Hindi, Gujarati, Sindhi

WORK EXPERIENCE

Python Developer, *Sevencore Techstack* 06/2026 – Present
Ahmedabad

- Develop and maintain Python-based backend solutions involving business logic, database operations, API integrations, and workflow automation.
- Work with Python, PostgreSQL, and Odoo to build and maintain scalable business applications.
- Troubleshoot application issues, optimize backend operations, and implement solutions based on business requirements.

Odoo Developer Intern, *Sevencore Techstack* 12/2025 – 05/2026
Ahmedabad

- Developed and customized Odoo modules using Python, SQL, XML, and Odoo ORM across HR, Payroll, Attendance, Asset Management, Maintenance, and Real Estate.
- Implemented business logic, validations, workflow automation, and scheduled Cron Jobs to streamline ERP processes.
- Customized backend functionality and ORM operations based on business requirements.
- Debugged application issues and optimized Odoo workflows and database operations.

Data Science Intern, *Ittanta Technologies* 02/2025 – 05/2025
Gandhinagar

- Analyzed real-world business datasets using Python and data analysis techniques to identify actionable insights.
- Developed a CRM-focused data analysis project to analyze customer behavior and support retention and engagement strategies.

PROJECTS

Real Estate Management Module, *Odoo*

- Developed an Odoo-based property management solution covering properties, customers, sales, and bookings.
- Implemented custom models, relationships, business logic, form views, validations, and workflow automation.

HR Attendance & Leave Management System, *Odoo*

- Customized Odoo Attendance and Time Off workflows with attendance validation, leave accrual automation, Cron Jobs, and approval workflows.
- Developed attendance dashboards for employee attendance, leave, holidays, work schedules, and attendance status.
- Resolved issues involving attendance records, leave allocation, employee work entries, and dashboard data.

EDUCATION

BE in Information Technology, *Shree Swaminarayan Institute Of Technology, GTU* 07/2022 – 05/2025
Gandhinagar

Diploma in Information Technology, *Government Polytechnic Gandhinagar, GTU* 06/2019 – 05/2022
Gandhinagar
